

ROFIN / Baasel Lasertech strengthens Technology Team

Mr. Stephan Geiger will join the ROFIN / Baasel Lasertech in Starnberg effective May 1, 2006. He will manage the newly formed business unit "New Technologies". In his new function, he will be responsible for the development of new laser sources and systems.

In his most recent position, Stephan Geiger was the managing director responsible for technology at Bavarian Photonics, a company he co-founded in 2002 specializing in high performance solid state lasers. Prior to that, Stephan Geiger was vice president of research and development of TuiLaser AG, Bavarian Photonics' parent company. He started his career in 1985 – 1999 at ROFIN's Marking division, rising to the level of R&D manager. During his tenure here, he made considerable contributions towards turning the company to technological leadership.

Stephan Geiger holds a German diploma in Physical Engineering from the University of Applied Sciences in Munich.
